

Our Outreach Programs use a public health approach to palliative care and expand the reach and effectiveness of formal health services by engaging communities to care for their own at end of life.

*Hey Jude,
Don't make it bad.
Take a sad song
and make
it better.*

John Lennon

Referral by Strathmore Hospital Acute Care Staff

Using an evidence -based community development approach, Wheatland & Area Hospice Society seeks to achieve objectives in three areas:

- Culture (shifting community norms & practice around death and dying)
- Capacity (formal & informal supports around care, dying and loss)
- Compassionate communities (encourage inclusion and development of social care networks)
